

**Amenity Pick Station**

Equip and organize the housekeeping cart prep area with Storage/Pick stations and high-density Tote Storage Cart.

## AMENITY PICK STATION

- Organization eliminates hidden forgotten stock. Pick station allows easy access for storage and dispensing.
- Pick station available in 24" (610mm) and 30" (760mm) depths with back up storage area below counter.
- Perfect for applications involving spillage or contamination. Shelf design features a raised "ship's edge" on all four sides. Sturdy aluminum castings firmly lock corners to posts. Embossed or louvered/embossed shelf styles allow air circulation. Available in stainless steel or galvanized.

Standard Unit height is 72" (1825mm). Stainless steel counter top height is 36" (910mm). Work surface on 24" x 48" (610x1220mm) unit is 10" (254mm) and 30" x 60" (760x1520mm) unit is 12" (305mm).
