

We put space to work.

# qwikTRAK® Double Deep High-Density Storage System

for Super Erecta®, Super Adjustable Super Erecta, and the MetroMax® Storage System.

- Maximizes Storage Capacity: High-Density qwikTRAK can increase the storage capacity of a given area up to 50%. Mobile units are positioned between stationary units and an active aisle can be opened between any two units as needed. This efficient utilization of space addresses the storage needs of growing operations and may eliminate the need for facility expansion or renovation.
- Greater density and efficient access: Double Deep format includes mobile units that are connected end-to-end. These longer bays can be repositioned more quickly than two side-by-side standard systems.
- Ideal for Rough or Choppy Floors: Floor tracks compensate for rough or choppy floors and provide a smooth, level surface to guide the mobile units in a straight line.
- Accessible and Ergonomic: The low profile and sloped sides of the guiding track, combined with the easy-to-move mobile units, provide safe and easy access to all stored products. Mobile units roll easily along the track, even when moving heavy loads.
- Easy to Lay Out and Assemble: Select end, intermediate, or mobile kits and just add shelves! Units are quick and easy to assemble. The guiding track is easily positioned. The end stationary units anchor the system and the guiding track to the floor.

• Strong and Durable to safely manage heavy loads. Weight load capacities (evenly distributed):

### Mobile units:

- Super Erecta, Super Adjustable, and MetroMax Q mobile unit: 3,000 lbs (1364 kg)
- MetroMax i mobile unit: 1,800 lbs (818 kg) per unit
- Versatile: qwikTRAK is designed to fit most of Metro's shelving systems and can be configured in different lengths and widths.

# Super Erecta Dry environment:

- Kits with chrome posts for use with Chrome plated wire, Metro BRITE finish wire, Galvanized Solid shelving.

### All environments:

- Kits with Stainless Steel posts for use with Type 304 stainless steel wire or solid shelving.
- Kits with Metroseal 3 coated posts for use with Metroseal 3 wire shelving & Super Erecta Pro with removable plastic shelf mats.

### MetroMax i and MetroMax Q - For use in all environments:

MetroMax Kits are available with either all-polymer posts or epoxy coated posts. All-polymer posts offer rust-proof performance and are commonly used with MetroMax i all-polymer shelving. Polymer posts may be used with MetroMax Q for added corrosion protection. Epoxy coated steel posts offer corrosion resistance and improved rigidity. They are commonly used with MetroMax Q corrosion resistant shelving. The epoxy coated steel posts may be used with MetroMax i.

# qwikTRAK® Double Deep High-Density Storage System —

for Super Erecta®, Super Adjustable Super Erecta, and MetroMax® Storage System

### **SYSTEM COMPONENTS**

**A** = Stationary End Units

**B** = Mobile Units

C = Floor Track

**D** = Stationary Intermediate Unit

E = Active Aisle

# System Measurements

- Actual length: Nominal track length + the nominal width of each end unit + 3" (76 mm)
- Actual width: Combined Nominal Shelf lengths of each unit + 3.5" (89mm).
- Actual height of a mobile qwikTRAK unit is: Nominal post height + 4.5" (115 mm)
- It is recommended that the tracks are installed at least 2" (51mm) from the wall.

### **Mobile Unit Measurements**

To accommodate bumpers, the actual size of a double wide mobile unit is 2.5" (63.5 mm) wider than the shelf width shown. For example, an 18" (457 mm) wide unit is actually 20.5" (521 mm).

**Choosing shelves:** All end, intermediate, and mobile units must be 18" (457 mm) or wider. Each stationary end and intermediate unit must have a minimum of four shelves. Super Adjustable shelves may be used for all tiers.

### Stationary End Unit Kit (Choose one kit for each system)

Includes 74" high posts (1880mm) high stationary posts, and hardware necessary for connecting double deep stationary end units to tracks. Shelves are sold separately.

Super Erecta Super Erecta Pro. Super Adjustable Super Erecta — MetroMax Q Steel Posts — MetroMax Polymer Posts —

Traditional Configuration with stationary end units. ONE End Unit Kit is required per system. Shelves are ordered separately.

Note: Chrome plated kits include plated foot plates. All others include Stainless Steel foot plates.

### **Stationary Intermediate Units**

Required when overall desired track length exceeds 21' (6405mm). Optional when track length is under 21' (6405mm). Includes (8) 74" high posts (1880mm) high stationary posts, and hardware necessary for connecting one double deep stationary intermediate unit to tracks. Shelves are sold separately.

**Note:** Casters feature an acetyl grooved wheel. Chrome plated mobile kits include stem casters with plated steel components. All others include stem casters with stainless components. Caster connector channels with each kit are stainless.

ONE Mobile kit per mobile unit. Example: (6) needed in the above picture. Shelves are ordered separately.

Under normal conditions, aisle width of 30"-36" (760-914mm) is recommended. The storage of very large objects within the system, however, may require an aisle width larger than 36" (914mm).

# For best performance on heavily loaded systems:

1. For configurations using shelves 60" (1524mm) or longer and managing heavier loads choose a more rigid shelving option.

Wire Shelving – Use all SES wire shelves.

Polymer Shelving (MetroMax) – Epoxy coated steel posts offer the most rigid configuration.

- 2. Weight capacities (evenly distributed) Mobile Units.
  - Super Erecta, Super Adjustable, and MetroMax Q mobile unit: 3,000 lbs (1364 kg)
  - MetroMax i mobile unit:1,800 lbs (818 kg)
- 3. When using long tracks, 13ft or longer, securing the stationary units to the floor will help to keep the system in alignment.

# **Additional Configuration Notes**

gwikTRAK is available with 74" (1880mm) posts as standard.

Requests for TALLER posts must be reviewed by Metro Engineering.

For applications requiring posts SHORTER than 74" (1880mm), contact your Metro representative.

4. Existing Metro Super Erecta, Super Adjustable, Super Erecta Pro, MetroMax Q, and MetroMax i shelving units can be retrofitted as part of a Double Deep gwikTRAK installation.

## **Installation Guidelines**

- 1. It is recommended that the tracks are installed a minimum of 2" (51mm) from the wall.
- 2. It is the discretion of the user to install the end units to the floor.

# METRO

# qwikTRAK® Double Deep High-Density Storage System —

for Super Erecta®, Super Adjustable Super Erecta, and MetroMax® Storage System

# **Specifications**

- Track and joining channel: Aluminum extrusion 6063 with 1/2" (13mm) square stainless steel tubing. Joining channel is stainless steel.
- End plate and mounting plates (connect post with foot plate to track): Aluminum.
- Casters and Caster Horns: 3-1/4" (83mm) acetyl wheel. Chrome-plated kits include casters with plated horns. All other systems include casters with stainless steel horns.
- Double deep mobile unit components:
  - Center Caster Channel: Stainless steel
  - Top Mount Joining Plates: Stainless Steel
  - On Super Erecta, aluminum sleeves with stainless c-rings are used with the top mount joining plate.
  - On MetroMax family, polymer bolts are used with the top mount joining plates.
- Center Caster Channel:Stainless steel
- Footplates and Hardware: Chrome-plated kits include plated footplates and hardware. All other systems include stainless steel footplates and hardware.
- Shelving: see spec sheets for Super Erecta (10.01), Super Adjustable (10.01A), MetroMax i (9.20), and MetroMax Q (9.21).

Replacement Parts for Double Deep qwikTRAK	Super Erecta and Super Adjustable Cat. No.	MetroMax i & Q Cat. No.
Stem Caster with plated Horn	RPC02-317A	-
Stem Caster with Stainless Horn	RPC02-317B	RPC02-317B
Bumper	9992DB	M9992DBX
Center Caster Channel	RPLBTM-C18 RPLBTM-C21 RPLBTM-C24	RPLBTM-C18 RPLBTM-C21 RPLBTM-C24
Top Joining Plate for Mobille Unit	RPLBTM-ST18 RPLBTM-ST21 RPLBTM-ST24	RPLBTM-MT18 RPLBTM-MT21 RPLBTM-MT24
Top Joining Plate Hardware	9986S	For Polymer Post: RPMX3-STMRECT RPDDQTMBOLT  For Steel Post: RPMQ3-STMRECT RPDDQTMBOLT
End Plates and Hardware for Double Deep End Unit	RPHDWE-LBTEND	RPHDWE-LBTEND
Footplates	9993Z (zinc plated) 9993S (stainless)	<b>9993S</b> (stainless)
Joining Channel (2 per set)	LBTJKN	LBTJKN
