Metro® Mightylite™ Insulated Top-Load Food Carriers

Attractive, ultra light, and durable insulated top-load food carriers for transporting and delivering hot and cold food pans, containers, plated meals, or virtually anything else.

- Durable: advanced polymer foam construction with high strength-to-weight ratio withstands impact without damage, making it perfect for lifting and withstanding the rigors of off-site food transport!
- Ultra-light: 80% lighter than traditional polymer molded, urethane foam filled carriers and 60% lighter than coolers. ML180 only weighs 3.8 lbs. (1.7kg) and ML180XL 4.6 lbs.
- Ergonomic: ultra light with 4 convenient handles, facilitates lifting, carrying, and moving in any situation. Grab the optional carrying strap for one-handed or two-person carrying.
- Keeps food safe for 5+ hours! Transport hot or cold food at safe, appetizing temperatures with confidence.
- Snap seal lid: Flexible, integrated seal snaps shut to help retain temperature. Never worry about replacing or cleaning hinges, latches, or gaskets again!
- Label holder: two convenient pockets accept a 5.5" x 4.25" (140 x 108mm) folded piece of paper to make identifying carrier contents and destination easier.
- Stackable: carriers are designed to interlock with each other, Mightylite front-load carriers, and optional dolly for more efficient transportation and storage.
- . Generous hand recesses: for easy loading and unloading of food pans. Also increases storage area to fit more containers.
- Recyclable: 100% recyclable, CFC free.
- BigBoy lid: ML180XL with innovative BigBoy multi-functional lid provides 63% more storage, clearance to store taller items, and doubles as a server.

Specifications

 Carrier Construction: Lightweight, thermally insulated. impact absorbing, eco-friendly engineered plastic foam body and lid made of expanded polypropylene (EPP). 1.5" (38mm) thick walls.

Accessories

- Dolly (MLD1): Constructed of heavy-duty high density polyethylene (HDPE) construction reinforced with aluminum caster channels. Designed to transport carriers or milk crates. Can be stored on top of carrier, strap included.
- Thermal Partition (MLP1): Lightweight, insulated EPP construction, helps avoid accelerated food temperature loss or gain inside partially full carriers, or used to separate hot and cold food in the same carrier.
- Heater (MLH1): Stainless steel, thermostatically controlled add-on carrier heater. Great for applications where carriers are frequently accessed or not 100% full, or simply when added heat is desired to keep food hotter, safer, and more appetizing.
- Serving Ring (MLW1): Epoxy coated wire construction, for use in conjunction with top-load carriers and heater to transport & serve with a single solution that does not require water or canned fuel. Accommodates full & fractional sized pans, and non-pan items such as individually portioned meals.
- Carrying Strap (MLS1): Heavy-duty, adjustable strap that can be reconfigured for one or two person carrying. Designed to work with top-load and front-load carriers.
